RESOURCE MANAGEMENT

Statutory Authority - Resource Management Act

Who Responsible - Manager Environmental Services

General

The fees and charges are set out in the attached schedule and are either based on a flat fee or a deposit which is paid when an application is lodged. All fees are GST inclusive.

Any application which does not require a hearing is based on a flat fee which covers the application processing costs up to the decision stage. Subdivision fees are based on a flat fee which covers costs up to the decision stage and any further processing from the decision through to the conditions certificate (Section 224) is charged as additional fees and is required to be paid before the release of the Section 224 Certificate.

The flat charges within the table below have been fixed in accordance with Section 36 of the Resource Management Act and in particular section 36(4) for the purpose of recovering reasonable costs incurred by the Council in respect of the actions to which the charges relate.

Where the flat fee charges are inadequate to recover all actual costs incurred by the Council, an additional charge will be made if Council is satisfied, having regard to the provisions of sections 36(3) and 36(4) of the Resource Management Act that such charges reflect its actual and reasonable costs in respect of the matter.

Any application which requires a hearing requires a deposit to be paid when the consent is lodged. The actual costs of processing the consent and hearing costs will be charged to the applicant and invoiced after the decision is released. The hourly rate for planning processing, Engineering processing and Monitoring for the Environmental Services Unit is charged at \$135.00 (incl GST) per hour or part thereof to the nearest six minute interval except where expressly provided for otherwise within the charging table. The hourly rate for internal Environmental Health advice required to process tasks contained within the charging table will be charged at an hourly rate of **\$135.00** (incl GST).

Subdivision And Land Use Consent Applications Lodged Concurrently

When a subdivision triggers a land use consent or a land use consent is directly associated with the subdivision (and the application is lodged concurrently). The subdivision fee plus a category 1 flat fee of \$540 will be required. For example: subdivision with a non-complying access way = subdivision fee + \$540 additional.

However, this does not apply where a resource consent is required for a new activity. For example where a land use consent is required for a retail development that does not comply with car parking and a subdivision consent is also applied for. In this case the full land use and subdivision fees would apply.

If a comprehensive development plan is required to be lodged with a subdivision application in the Amberley urban area, then an additional fee of \$540 is required.

Expert Reports

The Council may seek an expert report (and / or evidence) for any Resource Management application (i.e. including notified or non-notified resource consent). For example, the following experts may be engaged: traffic planner, landscape expert, noise consultant or legal advice. The actual experts cost shall be charged to the applicant.

**RESOURCE MANAGEMENT DEPOSITS, STANDARD FEES AND CHARGES
LANDUSE RESOURCE CONSENT**

– The following resource consent fees for non notified resource consents. This application fee for category 1, 2 & 3 is a flat fee which includes: administration time, planner's time and a monitoring inspection. Any resource consent that requires additional monitoring due to non-compliance with the conditions of resource consent will be charged additional monitoring cost as set out in the fee schedule. Any resource consent that involves engaging an expert will be charged additional fees as set out in the schedule.
