Estimated number of tanker loads: _____

Proposed start date: _____

Proposed finish date: _____

I, the undersigned, confirm that I have read, understood and will observe the conditions of use as stated overleaf:

Applicants signature: _____

Date: _____

OFFICE USE ONLY

You are hereby authorised to draw water from an HDC hydrant as per the conditions stated overleaf for the following time period

Date Issued: _____

Expiry Date: _____

Authorising Officer Name: _____

Signature: _____

Conditions of approval:

1. Approval has been granted for the applicant to draw _____ tanker loads of water, with a tanker load being defined as up to 10,000 litres. As such the applicant agrees to pay \$55.00 per tanker load as per our fees and charges.
2. An HDC standpipe with a certified backflow preventer is used. The standpipe can be hired from Hurunui District Council for \$500.00 which is fully refundable upon the standpipes return.
3. Location of the hydrant to be used to draw water is specified as _____

(map attached if required).
4. The local Utilities Officer looking after the water scheme in question will be notified before water is taken from the hydrant. The Utilities Officer that needs to be contacted is:
_____ and he can be contacted on: _____
5. Hurunui District Council will be notified should there be any changes to the water requirements. HDC could be notified either on 03 314 8816 or utilities@hurunui.govt.nz
6. A copy of this approval is kept in the tanker on site at all times and should be produced should any Council officer ask to see it.
7. Fire hydrants must be turned on and off very slowly to prevent pressure surges from developing in the pipes.
8. The applicant is liable for the cost of any damage caused by the incorrect operation of the hydrant valve or Council standpipe.
9. Care shall be taken to avoid contaminants from entering the hydrant in use (standpipes will be kept free of mud and dirt and the hydrant cap returned correctly after use.)
10. Contractors should consider the potential for hazards when using the standpipes and hydrants to fill tankers and are responsible for their own health and safety practices to ensure the safety of themselves and the public.
11. The permit may be revoked at the discretion of the Council at any time if the use of water is considered excessive or unreasonable . This will be discussed with the applicant prior to revoking the approval.
12. This permit must be renewed annually, as per the expiry date if applicable.
13. Failure to comply with the above Conditions may result in the permit being revoked.
14. The Council reserves the right to amend the conditions of use at any time. All permit holders will be notified of any changes.
15. Any other conditions: _____
