

## Rates System

### Definitions used

All references to *District* are to the Hurunui District.

*Serviceable* means that the relevant service is available to the relevant rating unit or separately used or inhabited part of a rating unit and, specifically:

- in the context of water supply rates that the rating unit or separately used or inhabited part of a rating unit is within 100 metres of the relevant water infrastructure; and
- in the context of sewerage rates that the rating unit or separately used or inhabited part of a rating unit is within 30 metres of the a public sewerage drain.

*A separately used or inhabited part of a rating unit* includes any portion inhabited or used by the owner or a person other than the owner who has the right to use or inhabit that portion by virtue of a tenancy, lease, licence, or other agreement. This definition includes separately used parts, whether or not actually occupied at any particular time, which are provided by the owner for rental (or other form of occupation) on an occasional or long term basis by someone other than the owner. For the purpose of this definition, vacant land and vacant premises offered or intended for use or habitation by a person other than the owner and usually used as such are defined as 'used'.

For avoidance of doubt, a rating unit that has a single use or occupation is treated as having one separately used or inhabited part.

Examples of multiple separately used or inhabited parts of a rating unit include:

- A rating unit that contains more than one dwelling.
- A Motel complex that has a dwelling attached.
- A Retail complex that has more than one shop.
