

Township Sewerage Scheme

Appl. No _____

Val. Roll No _____

Applicant Details:

Name of Applicant: _____

Postal Address: _____

Phone Number: _____

Email: _____

Connection Address: _____

Legal Description: _____

Hereby make application for connection to the **AMBERLEY** Sewerage scheme. (**Leithfield Road Extension**)

I submit herewith the capital contribution of \$6,990.00 (including GST)
(\$3,830.00 as a lump sum payment for share of the extension costs, plus \$3,160.00 as a contribution towards the scheme upgrading in accordance with the District Plan) (For those who are connected to private schemes who wish to connect to the new main)

1. Where a property is within or outside the original sewerage scheme area and no sewer rate has been paid then that property is not able to connect to the reticulation until a capital contribution is paid to the scheme, and approval for that connection has been given.
2. Where a property is within the original sewer scheme area and has paid a connected sewer rate, and that property is then subdivided, each additional allotment created is liable for a capital contribution to be paid to the scheme.
3. Where a section is within the original sewer scheme area and has paid an unconnected sewer rate, and that property is then subdivided, each additional allotment created is liable for a capital contribution to be paid to the scheme.
4. Where an additional self contained building unit is required on an existing property which has been paying the connected or unconnected sewerage rate, each additional building unit will be liable for a capital contribution to be paid to the scheme.

In addition to the above the subdivider is responsible to extend the sewer reticulation from the main sewer line to the boundary of each allotment, or to provide easements if applicable.

In the case of additional building units, extensions of the sewer reticulation will generally be allowed when the building drains are to be connected to the scheme.

In addition to this form, a connection form and fee will be required before final connection is made.
