**Subject:** Freedom camping bylaw change

I support the change in the freedom camping act of removing the spaces from Gore Bay to Cheviot.

This will support alcohol not being drunk near a children's play ground and in public places where there is a total alcohol ban over New Year's Eve.

It will also make accessing the toilet all bay users feel safer.

Also it will support using the current campground facilities and provide a disincentive to people pitching tents in other places and using reserve land for toileting as we saw last summer.

My only concern is whether the land behind the library opposite the hotel is the best space in Cheviot for freedom camping. ? I saw at least 6 vehicles there one day last summer.

Regards Ainsley Calcutt.
