I support the application for a fly ride as it adds and enhances diversity to the activities currently in Hanmer. Its complimentary to the existing alpine and outdoor health and wellness activities such as the Thermal pools, massages, walking and bilking.

I like that the forested character is to remain on Conical Hill and replanting of natives will occur where removal and pruning is required. Once these grow this will look great.

This fly ride should ensure repeat visitor base is enhanced and adds "something" more and positive to do whilst in Hanmer linked to alpine, wellness and health.

Any noise factors are mitigated by the hours of operation that seem sensible as proposed - winter and summer hours. Perhaps the ride participant noise won't be as loud as a more dynamic thrill ride - this is slower moving.

Any visual factors can't be too bad compared to the existing national power lines already in place for 60 years.

I think an advantage is to be able to walk up for exercise and be able to fly ride down to save the knees descending as one ages. It will also provide a slow moving tree and hill experience with great views
